To Buy The Best - SUNFLOWER!

**SUNFLOWER SUPERIORITY**

TAKE A  
LOOK!

**Gauge Wheels** A trademark on all flexible Sunflower discs is front mounted gauge wheels. This important feature prevents the front gangs of the wing frame from gouging, buckling or cutting deeper than the other gangs, promoting a level, ridge or furrow-free field. The heavy-duty gauge wheel features a 5-bolt hub and 8.00x10 ply tire and tube.

**DOUBLE  
OFFSET DESIGN**

Eliminates center ridging while cutting the entire width at an even depth. Self-leveling hitch provides fore & aft leveling at any working depth.

**GANG  
CONSTRUCTION**

1/4" x24" or 22" Blades are available on 1 1/4" stress proof standard gang shafts. Gangs are hydraulically torqued to 1200+ lbs and are spring loaded to insure maximum trouble-free acres. Heavy duty scrapers complete the gang assembly making it truly SUNFLOWER SUPERIOR.

**TRANSPORT  
WIDTH**

Go from field working to highway transport in seconds. Transport width on 18'-21'-24' units are only 12'4" barely the width of your dual wheels, leaving

plenty of room for traffic to pass. Transport height is within legal limits.
