ORDER YOUR NEW SILO WITH A FIBERDOME CHUTE OR REPLACE YOUR OLD WORN OUT CHUTE

fiberdome SILO CHUTE

made with fiberglass, the material of the future — and proven in the past —

The Fiberdome chute is designed and engineered to be installed on most types of silos. Its structure allows it to withstand the toughest beating the weather elements or silo unloading systems can possibly dish out.

The chute is constructed in full 7 1/2 sections to minimize the number of joints. Connecting joints have a 2 1/2" tongue and groove design to keep feed in and water out. The large ribbed construction adds stability and strength.

Fiberglass is durable, corrosion-proof, attractive and translucent, allowing sunlight to pass through. Sunlight quickly dries interior moisture in the chute. The hard gleaming gelcote surface will remain for many years.

SEE ON DISPLAY AT THE PA FARM SHOW
Located in Booths 266, 267 & 268
