

# QUALITY FARM EQUIPMENT

## MONROE-TUFLINE®

### THE QUALITY LINE

Monroe-Tufline manufactures a full range of land tillage equipment for the small gardening jobs to the large farming operations. Designed with durability in mind, our equipment offers versatility and easy operation. We have a wide variety of lift and wheel harrows, box scrapers, grader blades, V-plows subsoilers, disc plows, and pasture renovators.

Tufline's grader blades have a unique telescopic design for strength and quick adjustment. The GB3 series is available in 6', 7', or 8' models with Cat. 1 or 2 clevis type hitch. This model features a reversible cutting edge, left or right tilt, offset left or right, and forward or reverse angle adjustment. The GB2 series offers similar features. **MODEL GB3-72**

Box scrapers are available in three series in widths up to 8'. Each series has a front and rear scraper blade and scarifier shanks with replaceable hard surfaced points. The TB2 series also has a hinged rear moldboard compared to the stationary rear moldboard on the TB0 and TB1 models. **MODEL TB166**

Three pt. lift harrows are our specialty at Tufline, so there are several models to choose from. Whatever your choice is on frame style, blade spacing, or gang bearings, we can help you get the type harrow you need to get the job done. Scrapers are available as an option. **MODEL TH91620**

Our line of wheel harrows include both tandem and offset designs. Tandem cutting widths range from 6'8" to 32'. Offsets range from 6' to 18'9". We have several folding wing harrows including the tandem flex wing model. The 63 series offset (model shown) offers maximum tillage with minimum side draft. **MODEL 63/103226**
