

Shreds Stalks Yet Won't Plug Up!

The perfect tool for ridge and minimum till

The Fuerst harrow cleans ridge tops, creating excellent seedbed. Unique "Spreading Action"® tines hug the soil at faster speeds to shred and evenly spread no-till stalks in the spring.

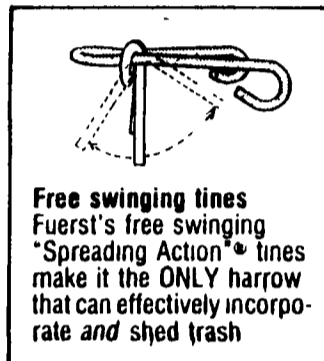

Dozens of uses:

The harrow used behind a disc or cultivator, incorporates herbicides in one pass. Used alone, it covers broadcasted seed, renovates, maintains pastures and more.

The harrow/cart (an optional harrow carrier as shown) follows tight turns, has folding wings for easy transport. Harrow and cart are available in 16 to 42 ft. widths.

"I believe the harrow works as good as a stalk shredder; it lifts and shatters the stalks and yet doesn't tear up the ground."
*Roger Bommer
 Brookville, IN*

Free swinging tines Fuerst's free swinging "Spreading Action"® tines make it the ONLY harrow that can effectively incorporate and shed trash

MIST SPRAYER ADVANTAGES

1. ROTARY ATOMIZATION distributes an even size droplet spectrum that greatly improves penetration and coverage.
2. LOW FIRST COST compared with conventional sprayers with the same acreage capabilities.
3. COST LESS TO OPERATE. 50-90% savings on diluent (water or oil). Water swaths at higher speeds with less tank fillings. Save a bundle on fuel.
4. SAVE ON COSTLY CHEMICAL. More complete coverage with 25-50% less chemical compared with conventional dilute solution sprayers.
5. LOW MAINTENANCE. Simple design with few moving parts means little upkeep. No down time due to repairs or plugged nozzles.
6. MORE EFFECTIVE CONTROL as a result of fine particle efficiency through distribution of chemical.
7. COMPACT UNIT — use of smaller tractors and no booms to contend with.
