PLY-FOIL is a  
very efficient form  
of insulation. In  
application after  
application it has  
proven to be ex-  
tremely effective  
at controlling heat  
gain/loss, thus  
significantly reduc-  
ing heating and  
cooling costs.  
PLY-FOIL insula-  
tion uses an alumi-  
num foil to reflect  
up to 97% of the  
radiant heat.

### PLY-FOIL BENEFITS

PLY-FOIL products are clean, lightweight, and  
non-toxic; are unaffected by changes in humidity,  
do not shrink; and once installed require no main-  
tenance. They do not promote the growth of fungi  
or bacteria, and provide no nesting support for  
rodent or insect pests. PLY-FOIL, which has a  
Class A/Class 1 fire rating, meets the fire and  
smoke safety requirements of most federal, state  
and local building codes
