Whether You Milk In A Parlor Or A Stanchion Barn

MOBITRON - The High-Tech High Performance Mobile Feeding System For Stanchion Barns That Saves Time, Labor And Feed.

Stanchion barn feeding has never been easier or more profitable than with Westfalia's MOBITRON! Completely automated and computerized, this high-tech, high-performance feeding system offers features conventional and competitive methods just can't deliver.

- * Single or Dual Rations -- meets every cow's needs
- * Multiple Feedings Per Day -- increases milk output
- * Optimal Feed Use -- saves money
- * 24VDC Power -- accommodates virtually all layouts
- * Printout (Optional) -- simplifies herd maintenance

The Mobitron Is A Computerized Monorail-Mounted Feeding Car That Will Automatically Deliver Feed To Your Cows. It Is Designed For Maximum Results And Offers Features And Benefits Conventional Feeding Methods Can't Deliver.

**Westfalia's
BIO-MILKER**

*It's Something
Else!*

**The Bio-Milker Multiplies
Your Profits - It's The Best
Way To Better Milking!**

Specially designed to regulate your milking operation, this positive pulsation air bleed milker assures harmony between udder and cluster. Milks with lower vacuum levels even in stanchion barns with a high milk line.

- Healthier Udders
- Reduced Milking Times
- Superior Milking Out
- High Milk Yield
- Reduced Cell Count
- Longer Productive Life Of The Cow
- Increased Profitability In The Show

STIMOPULS "M" And STIMOPULS "C"

Stimopuls M, the pre-milking stimulator/pulsator, can be used with the ACR 3 Control. This modern, electronic milking device performs stimulation every milking better than by hand and with uniform reliability. The milking preparation routine can now be a timed event. Thus, combining the ACR with stimulation/pulsation assures efficient let down, milking and take-off for each individual cow.

For a more complete milk-out and increased milk yields, Westfalia's Stimopuls can do the job for you. Now milking stimulation can be a timed event.

METATRON Will Make Your Milking System Complete!

Metatron Control

Westfalia's Metatron gives you the edge in effective, economical herd management. This DHIA and USDA approved cowside milk meter provides milk metering on an individual cow milking for in-parlor evaluation. Vital information of milk produced, maximum milk flow, average milk flow and milking time is also available at cowside. Aids you to better manage each individual cow.

The Metatron Milk Meter is transparent for visible operation and designed to take years of use. The unrestricted, full 1" milk outlet takes into account all air flow and milk flow requirements for high producing dairy cows of today and tomorrow. It's convenient, too, and can be on line mounted, or remotely mounted out of the operator's way.

Metatron Milk Meter
