Call Triple H Equip. For Details...

Wasting chemical and yield on hills and headlands is a thing of the past with Vicon's new flow proportioning and boom compensation system. Application rate **remains constant** even when ground speed varies or individual boom sections are shut off. That means better coverage with lower input costs.

It is available on all Vicon trailer sprayers with tank capacities up to 785 U.S. gal. (3000 litres) and automatic stabilizing booms from 28' to 62'. There's also a choice of hydraulic or manual folding booms and a range of accessories that make crop spraying less of a chore.

TRIPLE H EQUIPMENT
