

New high capacity old time reliability

New Holland 14x18-inch square balers have more capacity, improved reliability and better bale-shape capabilities.

- **Added Capacity.** Wider, Super-Sweep pickups get the short fine hay ordinary pickups miss.
- **Improved Feeding Systems.** A revolutionary new rotary system on the two larger balers adds capacity and improves bale shape. The "565" has a beefed-up Flow-Action® feeder.
- **Increased Reliability.** Stronger materials in the bale case and plunger, along with accurate knotters or twist-ers, complete the story.

Stop by today and check out the new New Holland "565," "570" and "575" square balers . . . from the hay baling experts.
