THE INSIDE STORY

Take a critical look at Vicon's automatic stabilizing boom system when you want the best shot at effective weed control.

Isolated from the sprayer by a low friction, four point linkage, the boom's weight keeps it level, while the tracks rotate around the rollers, absorbing bumps and bounces, levelling the way for pinpoint accuracy, end to end. The reversible AS4 linkage levels the boom to the horizon or to the sprayer axle for spraying on sloping fields. Triangular boom construction and 3-dimensional bracing puts muscle and rigidity where you need it.

You can change ground speed or shut off a boom section without worrying about over or under spraying. Vicon's FLO/BO system automatically maintains a constant application rate so you get better coverage with less waste.

Features like four point filtration, chemical pre-mix tank, sparge tube agitation and hand wash tanks make crop spraying safer and less of a chore.

Trailer sprayers are available with 365, 510, 785 or 1000 U.S. gal. tank capacities and hydraulic or manual fold AS booms up to 62 feet.

Get the boom you can count on. Vicon. The price is right at

\$3,995. In Stock
