Bill Shoemaker, past president of the PA Simmental Association, and George and June Snyder, PSA Breeders of the Year.

Fritz Frey of Frey Brothers, Industry Service Award.

Dennis Byrne, Commercial Cattleman of the Year, and Dr. Lowell Wilson, PCA president.

PROWL® Knocks Triazine-Resistant Weeds On Their Ear. For \$5 An Acre Less.

PROWL® herbicide handles the toughest triazine-resistant weeds in corn, like pigweed, lambsquarters and kochia. Other tough grasses and broadleaf weeds like foxtails, velvetleaf* and woolly cupgrass* are also controlled all season long with PROWL. Plus, PROWL® herbicide costs about \$5 an acre less than Dual¹ or Lasso².

Con-till. No-till. Conventional. PROWL works in any tillage system and can be applied anytime after planting up to the four-leaf stage. Do NOT incorporate PROWL in corn.

Tank mix PROWL and get even broader-spectrum control for problem weeds like wild proso millet, shatter-cane and seedling Johnsongrass.

This season, for proven cost-effective control of grasses and broadleaf weeds in corn, put PROWL to work in your fields. It really packs a punch.

Get PROWL® herbicide at your local Cyanamid AgriCenter™ dealer.
