# FRESH COWS STALLING OUT???

## Now There Is Something You Can Do About It!!!

### Purina Freshener Pak Starts Cows Right.

Fresh cows go off of feed for a number of reasons: freshening problems, mastitis, forage changes, too much grain, ketosis and just plain stress. That's why Purina has come out with a product designed with this key problem in mind.

**Dairy Freshener Pak** is designed to not only stimulate your fresh cow's appetite, but it also helps her maintain a proper immune response.

### HERE IS WHY

Dairy Freshener Pak contains these valuable ingredients in a palatable 4 ounces/day feeding rate:

- |   |   |
|---|---|
| <b>Niacin</b> - This slows fat metabolism and fights ketosis.   | <b>Vitamin A &amp; D</b> - Extra vitamins for periods of low feed intake.   |
| <b>Yeast</b> - Live <i>Sacchromyces Cerevisae</i> works to improve ruminal fermentation and stimulate appetite. | <b>Vitamin E &amp; Selenium</b> - Essential in the immune function of the body and helps to maintain structure and function of muscles. |
| <b>Vitamin B<sub>12</sub></b> - Stimulates appetite and helps to correct low milk fat.                          | <b>Oxytetracycline</b> - Reduces the incidence of bloat and increases milk production.  |

**TRY PURINA FRESHENER PAK ON YOUR NEXT GROUP OF FRESH COWS AND YOU WILL SEE IT WORK**
