Discover Oil On Your Farm

Today, many pork producers are adding energy to swine diets in the form of fat or oil to boost performance and reduce feed dust.

Local processing of soybeans by the INSTA-PRO extrusion method removes none of the nutrient rich oil.

TRIPLE "F" ProKcal and Energy Balancer Base Mixes combined with extruded soybeans and homegrown grains properly balance swine diets for maximum profit and performance.

Many Hearing Problems Can Be Helped.

Chicago, Ill. — A free offer of special interest to those who hear but do not understand words has been announced by Beltone. A non-operating model of the smallest hearing aid Beltone has ever developed will be given absolutely free to anyone requesting it.

It's yours for the asking, so send for it now. It is not a real hearing aid, but it will show you how tiny hearing help can be. The actual aid weighs less than an eighth of an ounce, and it fits completely into the ear canal.

These models are free, so we suggest you write for yours now. Again, there is no cost, and certainly no obligation. Although a hearing aid may not help everyone, more and more people with hearing losses are being helped. For your free sample send your name, address, and phone number today to: Department 20190, Beltone Electronics Corporation, 4201 West Victoria Street, Chicago, Illinois 60646.
