WARNING, ALL SILO OWNERS!

Check your silo now for rotten staves. If you have been using your silo for 10 to 15 years for either corn silage or haylage, it is time to SHOTCRETE.

Lancaster Silo Co., Inc.
2008 Horseshoe Rd. • Lancaster, PA • (717) 299-3721

S & S SILO SERVICE

ATTENTION FARMERS Strengthen And Reseal Your Silo With Shotcrete

STRONGER AND WILL OUT LAST PLASTER

S & S Silo Service Has 10 Years Experience With Shotcrete Relining

IS YOUR SILO READY TO BE FILLED WITH GRASS SILAGE?

PLEASE CHECK YOUR FILL PIPES AND DISTRIBUTORS NOW BEFORE FILLING SEASON

S&S Silo Service prepares the silo surface by using a 3,000 lb. pressure washer, thus making the silo moist, making a much better surface to bond shotcrete. After shotcreting, S&S always takes away any roughness by applying a steel trowel finish. The excellent bonding of shotcrete to the silo will keep out moisture and prevent mold from growing on the side of the silo.

RD 2, Box 91A Honey Brook, PA 19344
(215) 273-3993

• Large Tri-Suspension frame provides proper balance for even silage cutting.
• 2"x2"x1/4" angled steel frame has greater strength
• Forged 1/2" steel eye-bolts allow for individual cable adjustment and proper balance.
• Three, strong, 1/2" aircraft-type cables provide high-tensile strength and dependability.

• Auger knives are sharpened, hardened and curved. Result: augers and chipper wheels maintain proper wall pressure for better cleaning and more aggressive cutting and digging of hard-packed or frozen silage.

NEW!
