- Large Tri-Suspension frame provides proper balance for even silage cutting.
- 2"x2"x1/4" angled steel frame has greater strength
- Forged 1/2" steel eye-bolts allow for individual cable adjustment and proper balance.
- Three, strong, 1/2" aircraft-type cables provide high-tensile strength and dependability.

- Auger knives are sharpened, hardened and curved. Result: augers and chipper wheels maintain proper wall pressure for better cleaning and more aggressive cutting and digging of hard-packed or frozen silage.
