**SEE BADGER'S NEW EXCLUSIVE DESIGN IN DISC - INJECTORS**

- Badger's exclusive patented design injects manure in a uniform 1/4 "x22" layer under each injector shank
- Places manure in the plant root growth zone maximizing nutrient use by the crop
- No surface manure exposure substantially reduces nutrient loss and odor problems
- Perfect for minimum till operations since the Disc-injector loosens and aerates soil
- Retrofits any Badger injector as well as most competitive units
