**This year, you need more than feed. You need good business ingredients.**  
 With milk prices reaching an all time low, milking cows isn't your biggest expense. It's Feeding. In the months ahead, the right ration could make the difference between profit and loss.  
 At Pillsbury, we've got the feed ingredients and feeding know-how to keep your dairy business strong. Our complete line of dairy feeds — wet brewers grain, mineral mixes, milk replacers, and many more— can help you reduce feed costs, and still feed a nutritionally balanced ration to your herd.  
 Our feed consultants are experts in dairy feeds and nutrition. They can provide you with computerized ration formulation, forage sampling and nutrient testing. And, of course, all our products. For your dairy farm, these are good business ingredients. From Pillsbury
