Rolling on in the '90s

Meets the Challenge

**BRILLION IMPLEMENTS
KEEP GOING WHEN
OTHERS QUIT.**

P Series Single Gang Pulverizers

Pull Type Pulverizers in 10' to 16' widths with your choice of 20" ductile iron wheel (which carries a 5-year limited warranty), 20" Notched roller wheels, 20" Crowfoot, 18" Smooth, 16" Notched or 15" Smooth wheels with sprocket. The final result when using a Brillion Pulverizer is a firm and tilled, but not compacted seedbed. Available with or without transport.

If fuel economy and soil conservation are concerns of yours — Buy Brillion.

In 5 years Kverneland has brought a new dimension into forage production!

Silwrap 7515 - the ideal one-man machine for custom wrapping. Computer controlled from cab, 30' Kverneland pre-stretcher, Kverneland Applicator, and hydr. fall damper for gentle bale discharge.

Simple solutions are very often the best — and least expensive! Therefore, it is not a surprise that Kverneland in 5 years has achieved the World leadership with the Silwrap System.

- Because the Silwrap System offers:
- Minimal investments in fixed constructions
 - Forage production far less depending on weather
 - High feed value
 - Harvesting and storing with minimum loss
 - One man operated silage production
 - Great flexibility in harvest and storage
 - Highly reliable technology in method and machines
 - The experience behind more than 10 000 Silwraps

Silwrap 7558 - stationary (or 3 point) model fully computerized, infra-red operation from loading tractor. One man operation

The dominating position of Silwrap in more than 20 leading agricultural nations in the world clearly confirms the Kverneland philosophy — always to be a trouble shooter for demanding farmers.

For more details on how you too can benefit from Silwrap — and users references — please contact us today. Video tapes available.
