**When Livestock
 Do The Shopping**

Livestock prefer the natural taste of high moisture grain. Give them a choice and they'll go for its quality and nutrition most every time. It's the feed they deserve to maximize performance.

You need the efficiency of a Harvestore® structure. It easy-loads from the top and wisely unloads from the bottom. You can store grain at natural, high moisture levels* because a Harvestore structure minimizes spoilage and preserves the grain.

The price differential between a Harvestore system and other less efficient grain storage processing systems has shifted dramatically in the past few years. Before repairing or investing in outdated technology, contact your authorized, independent Harvestore Systems dealer.

*Consult Owner/Operator's manual for specific recommendations
