FREE DELVOTEST[®] SP or P OFFER

Introducing Delvotest[®] SP.

Buy a Delvotest[®] Block Heater before August 31, 1991, and get a **FREE Delvotest[®] SP MiniKit.**

Delvotest[®] SP is a simple, reliable, inexpensive test for detecting virtually all antibiotics which includes an increased sensitivity for sulfa residues in milk. You can set up a Delvotest[®] SP in 2 minutes. With the use of a timer, you can read the results at your convenience, up to 12 hours from the start of the incubation period. You run the test in your own milk room.

Why Delvotest[®] SP?

- Because you need to know your milk is free from all antibiotics, including sulfa residues.
- Because you need to know your milk is going into the tank truck, instead of down the drain.
