Open Unicorn: 1. Edd Sigmon, 2. John &

Lancaster Farming, Saturday, October 12, 1991-C9

Susan Cole; 3. Avery Sterling.
4 Horse Hitch: 1. John Weber; 2. Jim Mills; 3. Avery Sterling.

6 Horse Hitch: 1. Edd Sigmon; 2. Avery Sterling; 3. John & Susan Cole.

Producer Enrolls In Angus Herd Records Program

ST. JOSEPH, Mo. — Ralph Zeager, Elizabethtown, Pennsylvania, has recently been enrolled in the Angus Herd Improvement Records program of the American Angus Association, reported Richard L. "Dick" Spader, executive vice-president of the national breed registry organization.

Angus Herd Improvement Records (AHIR) is a comprehensive evaluation program used by registered Angus breeders to help them keep records of reproduction and growth rate on individual animals. Each year, hundreds of Angus breeders use AHIR records to produce more profitable, efficient Angus seedstock.

By weighing calves at 205 days of age and again at a year of age, breeders not only identify the cattle that grow the fastest and most efficiently, they also identify cows that regularly produce above average calves, and bulls that sire outstanding calves.

The American Angus Association in 1957 was the first beef breed organization to offer its members a production records program, according to the organization. Since that date, the AHIR program has grown to the point that breeders report more than 300,000 birth, weaning, and yearling weights each year.

AGCO ALLIS 8600 SERIES TRACTORS

36 SPEED CHOICES

AGCO Allis 8600 Series tractors give you 36 speed choices, an electronic engine speed governor and many other quality performance features, as well as a comprehensive 4-year/4,000-hour warranty.

• **Speed choices for all conditions.** The standard synchroper transmission offers 24 forward and 12 reverse speeds. An optional power Hi-Lo transmission boosts that to 36 speeds both forward and reverse. Both 8600 Series models are AWD with planetary final drive, and a self-adjusting, hydraulically-actuated clutch.

• **The air- and oil-cooled engine advantage.** The 8600 Series tractors feature the high-output, 6-cylinder, air- and oil-cooled diesel engine that eliminates components that cause downtime in liquid-cooled engines. The 8610 model has a 103 PTO hp engine with a 22% torque rise and the 8630 model has a 120 PTO hp turbocharged engine with a 30% torque rise.

• **PTO power and versatility.** The independent PTO operates at 540/1,000 rpm with 6- and 21-spline shafts and an electrohydraulically-actuated wet PTO clutch. The 3-point hitch comes standard with telescopic stabilizers Category II/1 on the 8610, Category III/II on the 8630. Optional telescopic lower links are available.

• **Quality performance features.** The 8600 Series tractors ride on premium Goodyear radial tires. They have hydrostatic steering, a tilt-telescope steering wheel and hydraulically-actuated wet disc brakes on all four wheels for 40% better braking. These models also have electrohydraulically-actuated rear and front differential locks that an operator can manually disengage for tighter turns.

To learn about all the quality features of the 8600 Series tractors, or any of the "orange" line of AGCO Allis tractors ranging from 40 to 128 PTO hp, stop by or call us soon.
