

**THE NEW STANDARD  
FOR HIGH-  
PERFORMANCE  
LOADER  
WORK.**

A new Case International MAXXUM tractor and 510 loader are perfect for loader work. Here's why:

- A standard shuttle shift transmission lets you shift from forward to reverse without clutching
- The new 510 loader lifts 3,500 pounds up to 12 feet.
- MID (Mechanical Front Drive) provides increased traction and stability (optional).
- Three mid-range MAXXUM models give you a choice of power, 77, 86 and 94 PTO hp (57, 64 and 70 kW)

Loading performance is just one of many reasons to own a MAXXUM tractor. Take a look at the choice of synchronized or powershift transmissions and durable Case International engines. And the choice of ROPS (roll-over protective structure) ROPS with canopy or deluxe cab, and more.

All three models are backed by the best warranty\* in the business, five years or 5,000 hours, whichever occurs first. Come in to see the MAXXUM tractor line today.

\*Excluding tires which are covered by their own manufacturer's warranties. A \$200 deductible applies to each repair after the first year. © Case Company 1989

& See  
Binkley & Hurst  
Soon!**

**Produce tighter, more  
uniform bales—on schedule.**

That's why all five 8500 Series Case IH Rectangular Balers give you center line design. Your hay moves in a straight line from the time it's picked up until it leaves the baler as a tight, uniform bale.

Center line means there are no corners to turn to get crop into the bale chamber as with conventional balers. Nutritious leaves go into the bale, not on the ground. And with the baler directly behind the tractor, it's easy to transport through narrow bridges and gates.

- Case IH Rectangular Balers also give you:
- Wide, low profile pickups collect full heavy windrows with leaf saving gentleness because the crop is not lifted as high to get it into the baler
  - Prepacker chamber compresses hay into uniform flakes
  - Flake size, density and bale size are more uniform
  - High speed, short stroke plunger to pack bales tighter
  - Hydraulic density control (optional on 8545, standard on 8550/8580) to regulate chamber pressure for tighter square shouldered bales for easier stacking

**If You Enjoy A Beautifully  
Groomed Lawn, You Need  
A Case IH 3 Pt. Finish  
Turf Mower Which Will  
Fit Any Brand Of Tractor  
With Cat 1 3 Pt. Hitch  
And 540 PTO.**

**For A Quality Machine -  
See Binkley & Hurst Soon!**

The Models 60RS and 72RS are 3-point hitch mounted finishing cut mowers designed for Case IH tractors in the 15 to 40 PTO hp (11.2 to 29.8 kW) range. Both 60RS and 72RS feature heavy duty gear box, shielded PTO drives. "B" section V-belt, blade spindle drive with spring loaded idler, and free-floating three-point lift system. Three spindle, high lift blade design provides smooth operation. Heavy gauge steel deck promotes long life. Two rollers and full pivoting gauge wheels are standard. Case IH 60RS and 72RS mowers are easy to attach and control, easy to service and built for quality mowing, year after year.
