CHALLENGER MODEL 1800 PLASTIC MULCH LIFTER

After your vegetable crop is over the Challenger is designed to retrieve the plastic mulch to the surface of the ground.
 Will lift plastics from 3 ft. to 5 ft. wide with fast and easy adjustments.
 On lifting plows, the farmer has choice of "Rock shears" or "Deep-suck shears" by Case International.
 Its heavy duty "C" springs on the disk coulters are designed to go over rocks and cut the toughest trash and vines which keeps from clogging. Has depth control wheels for constant depth control.
 Heavy shanks have 3/4" safety shear bolts. Auto-reset is optional.
 The best part of the Challenger is the price — it was designed with the small grower in mind— who doesn't want to invest a lot in removing his mulches.
 This year hitch to a Challenger and let it do that dirty job!

Call or write for free brochure and price list.
