

Progressive producers: Earn more for your quality hogs with Hatfield's

CARCASS MERIT PAYMENT PROGRAM

At Hatfield Quality Meats we strive to maintain a product line that meets the demands of consumers. In today's marketplace leaner, healthier products of consistent quality at economical prices are the ideal. In order to manufacture these types of products, we need lean hogs within our desired weight range of 210-260 lbs. Our Carcass Merit Payment Program identifies superior hogs and offers significant premiums in return. As producers invest more of their dollars into superior genetics and sound nutritional programs, we feel it appropriate to offer premiums for superior hogs. If all of us in the pork industry work together, we can meet the demands of consumers by providing lean and nutritious pork products.

President
Hatfield Quality Meats

Weight & Grade Payment Program

- Payment based on actual carcass measurements
- Objective carcass evaluation using the FAT-o-MEAT'er
- Significant premiums for top quality hogs
- Lot summary reports showing individual hog backfat and loin depth measurements
- Lot information useful in evaluating your genetic and nutritional programs

Hatfield's Quality Product Line

Hatfield prides itself on its nutritious product line. The variety of products includes more than 500 fresh, cooked, and smoked meats with a choice of Gold Ribbon, Less Salt and Lite labels. Hatfield uses the freshest ingredients and the cleanest, most efficient processing and packaging methods. Whether it's fresh pork, ham, bacon, sausage, scrapple, or franks, if it wears the Hatfield label its quality is guaranteed.

If you have quality hogs and want more information about Hatfield's Carcass Merit Payment Program, please contact Doug Clemens, Tom Moyer, or Jeff Arner in our Hog Procurement Department.
