*A Satisfied Customer...*

JOHN R. RODGERS, of Belleville had three styles of fencing installed totaling a mile on his farm. John offers these comments. "I looked at others fencers and determined that Beaver Fence Systems had the people that could do a quality job and a quality fence to keep the cattle where I want them. The flexibility of the fence gives me full utilization of the land with maximum efficiency. The job was completed in two days including a barnyard fence, plus 6 and 4 wire pasture fencing."

**BREWEX - For Use In Dairy Feeds**

BREWEX is used extensively in complete dairy formulations to contribute utilizable energy. It is a price/performance value when used in dry feeds, liquid feeds and on-farm mixes.

**MIX WITH DRY FEEDS:** BREWEX is found in commercial pelleted rations for dairy, hogs and poultry as an energy source to replace corn. BREWEX replaces corn on a pound for pound dry basis and provides for improved pellet durability, reduced mineral segregation, dust control and improved palatability in dairy rations.

**ON-FARM MIXING**  
A commercial Jersey dairy farm, having over ten years of experience in feeding BREWEX to partially replace corn finds that

- BREWEX replaced 5% to 10% corn/day
- BREWEX improves butterfat about 0.1%
- BREWEX mixed with forage reduces mortality due to displaced abomasum
- BREWEX helps cattle to stay on feeds
