Can you afford to buy without checking Lanc. Silo first?
HANSON
There is a difference
Lancaster BRAND FEEDING SYSTEM EQUIPMENT
Lancaster BELT FEEDER AND NEW Lancaster CONVEYOR
Modern dairy and beef facilities can be automated with the use of bunk feeders using belt feeder units. Corn silage hayslage high moisture content material can be distributed quickly evenly and in continuous separation. A traveling plow unit places the feed directly in the center of the bunk trough. Simple operation and very low horsepower requirements make this Lancaster belt feeder popular with dairy and beef operators. Rubber lined and wooden trough design keep silage from coming in contact with metal.

VAN DALE
