

Our 12 inch gooseneck improves your Harvestore®.

Lancaster Level-Flo's replacement gooseneck lets you fill your silo faster and easier. It has a 33% larger capacity than original Harvestore's goosenecks and its high-profile shape improves flow. You can actually blow in 3 tons of havalge a minute without plugging the Level-Flo 12" gooseneck. Yet it attaches easily to standard 9' fill-pipe.

Our goosenecks completely enclosed design keeps silage off the roof of your silo. Not only does this eliminate waste, it extends the life of the silo roof.

With an outer shell of galvanized steel the Level-Flo 12" gooseneck stays bright and shiny for years. And it contains an inner liner of extremely wear-resistant stainless steel.

● Designed with final section straight and vertical to put silage in the center of your silo

● And it's almost 50% less expensive than a Harvestore® replacement gooseneck
