AGCO ALLIS 8600 SERIES TRACTORS

36 SPEED CHOICES

AGCO Allis 8600 Series tractors give you 36 speed choices, an electronic engine speed governor and many other quality performance features, as well as a comprehensive 4-year/4,000-hour warranty.

- **Speed choices for all conditions.** The standard synchropower transmission offers 24 forward and 12 reverse speeds. An optional power Hi-Lo transmission boosts that to 36 speeds both forward and reverse. Both 8600 Series models are AWD with planetary final drive, and a self-adjusting, hydraulically-actuated clutch.
- **The air- and oil-cooled engine advantage.** The 8600 Series tractors feature the high-output, 6-cylinder, air- and oil-cooled diesel engine that eliminates components that cause downtime in liquid-cooled engines. The 8610 model has a 103 PTO hp engine with a 22% torque rise and the 8630 model has a 120 PTO hp turbocharged engine with a 30% torque rise.

- **PTO power and versatility.** The independent PTO operates at 540/1,000 rpm with 6- and 21 spline shafts and an electrohydraulically-actuated wet PTO clutch. The 3-point hitch comes standard with telescopic stabilizers: Category II/I on the 8610, Category III/II on the 8630. Optional telescopic lower links are available.

- **Quality performance features.** The 8600 Series tractors ride on premium Goodyear radial tires. They have hydrostatic steering, a tilt-telescope steering wheel and hydraulically-actuated wet disc brakes on all four wheels for 40% better braking. These models also have electrohydraulically-actuated rear and front differential locks that an operator can manually disengage for tighter turns.
