Whether You Milk In A Parlor Or A Stanchion Barn

DAIRYPLAN 4

**Complete Herd Management
Computerized System**

Westfalia Dairyplan is management controlled phase feeding of concentrates to each individual cow.

Dairyplan communicates directly with Westfalia Metatron Milk Meters to and from the parlor.

Central Computer with optional terminal and modem will help you manage your entire dairy.

Westfalia Dairyplan allows you to design your reports the way you want them.

**MILK
METER**

**Easy To Learn,
Profitable To Use!**

If your question is how to get more milk and profit per cow... This system provides your answer!

DHIA approved. This cowside easy to read micro-processor provides the information you need. Total milk yield, maximum milk flow, average milk flow and milking time.

Give Your Dairy The Westfalia Advantage With Dairy Plan Software Program

Your Head Start Toward Better Management & Profits!

Each cow has her own coded comfort collar for easy identification. The durable stainless steel feed stall with "fast eating" mangers has the identifier and feed inlet.

Feeds 30 to 2,000 cows! Feeding, Milking, Breeding, Herd Health And Vet Information Is Recorded And Processed for Daily Management And Decision Making

MANAGEMENT BY E
Sophisticated technology that can be connected to the Walk-Thru ID system. The system will automatically identify each cow as it enters the milking parlor. The cow's identification code is stored in the computer, and the cow's identification code is used to identify the cow's milk meter. This provides early detection of health problems, and concentrate on individual cows.

WESTFALIA'S CALF FEEDER

brings feeding calves into the twenty-first century.

Fresh Milk

Biologically exact portions of freshly mixed milk replacer are available at any time of the day or night, when the calf is hungry. The calf-feeder attached to Dairy Plan feeds the calves automatically exactly what they need. The portions are always freshly stirred and at a constant temperature. This easy-to-clean calf feeder is operationally reliable, easy to use and easy to maintain.

METATRON Will Make You Mil

Metatron Control

Westfalia's Metatron gives you the edge in effective economic herd management. This DHIA approved cowside milk meter provides individual cow milking information of milk produced, maximum milk flow and milking time. Aids you to better manage each cow.

The Metatron Milk Meter is transparent for visible operation and designed to take years of use. The unrestricted, full 1" milk outlet takes into account all air flow and milk flow requirements for high producing dairy cows of today and tomorrow. It's convenient, too, and can be on line mounted, or remotely mounted out of the operator's way.
