12 years of university development and testing prove Alfagrazze survives intensive grazing better than any alfalfa variety!

NEW ALFAGRAZZE

VARIETY ALFALFA

THE FIRST DUAL-PURPOSE
ALFALFA FOR
HAYING AND GRAZING.

**SURVIVES
INTENSIVE
GRAZING**

12 years of university development and testing prove Alfagrazze survives intensive grazing better than any alfalfa variety.

**BEEF PRODUCERS
2.5 lbs.**

Alfagrazze has produced gains up to 2.5 lbs. per day at moderate stocking rates in university yearling beef steer trials. Alfagrazze boosts live weight gain per acre and lowers production cost.

**DAIRY PRODUCERS
LOWER
FEED COSTS**

Alfagrazze has produced protein contents of 22 to 23% and digestibility as high as 62%. Grazing Alfagrazze eliminates harvest losses, increases forage quality and can save you 20 to 40% on your feed bill.

**TOP
YIELDS**

Whether you graze or hay Alfagrazze, you can count on top yields. In yield performance trials, Alfagrazze yields like other top hay varieties.
