

# Governors Visit Garber

(Continued from Page A1)

"Some of the most effective methods are the least costly. The small basin below the farmstead that collects run-off is a good example of a low-tech, low-cost solution that can be used on farms all across Pennsylvania.

"One of the things to be learned on this farm is that nutrient management saves money for the farmer in reducing expensive inputs."

Scheafer said the work between Pennsylvania and Maryland on the

Chesapeake Bay program is regionalism at its very best, working together to solve problems.

"Garber's grandfather was undoubtedly ahead of his time when he installed terraces on the farm to reduce water run-off," Scheafer said. "The Garber family continues to follow that practice. The stream that flows in the meadow beside the farm buildings that has been cleaned up by proper management practices, flows into a river that flows into the Susquehanna and on to the Bay. Therefore, you are directly responsible for cleaning the bay. You have done it, and we appreciate what you have done."

The entourage of governors and other important people met first at the Farm and Home Center for a press conference. Then, Bob Gregory, Lancaster's conservation district manager, and Gerald Heistand, assistant conservation district manager, escorted the tour to the farm.

The Garber brothers explain farming to the governors. From left are, William Scheafer, governor of Maryland; David Garber; Robert Casey, governor of Pennsylvania; and Joe Garber.

## Dauphin Sets Awards Banquet

DAUPHIN (Dauphin Co.) — The Dauphin County Conservation District will hold its annual awards banquet on Tuesday, March 10, at 6:30 p.m. at the Agriculture and Natural Resources Center in Dauphin.

The public is invited to attend and hear quest speaker Dr. Noel Falk, better known as "The Plant Doctor," deliver a talk on conservation.

A segment of the banquet program will be devoted to honoring individuals whose efforts to conserve the county's natural resources have been exemplary. Among those will be the 1991 Farm Cooperator, the Environmental Education Teacher and Conservation Organization of the Year, and an award for conservation awareness in municipal government.

This year the Dauphin Conservation District commemorates its fortieth anniversary.

Tickets for the banquet and program are \$9 and may be purchased from the conservation district office at 1451 Peters Mountain Road, Dauphin, PA 17018 or by calling (717) 921-8100.

# SPECIAL OFFER ON HOPPER BOX LIDS FOR LOCK 'n LOAD.™

LOCK 'n LOAD™ closed handling system is the faster, safer way to handle your insecticide. No bags. No dust. Reduced risk of spills. Just lock containers on to special planter lids, and they load. Automatically. All you need are the special lids for your planter. And, for a limited time, we'll help cover

the cost of these lids. Buy before June 15, 1992, and we'll give you 20 cents cash back per pound for COUNTER® LOCK 'n LOAD™ and 15 cents cash back per pound for THIMET® LOCK 'n LOAD™ — up to the full amount you paid for your planter lids. See us today and find out how you can get your special planter lids... almost free.

Restricted Use Pesticides. Always read and follow label directions carefully. ©/™ Trademarks, American Cyanamid Company © 1991
