

Heifer Fundraising Meeting Set

LANCASTER (Lancaster Co.) — The Southeast Pennsylvania Volunteer Heifer Project Committee from the Lancaster-Lebanon area is sponsoring a Heifer Project International fund-raising banquet at the Farm and Home Center on Tuesday, April 28, at 7 p.m.

The local committee has been in existence since the formation of Heifer Project International in 1944. At that time the gathering of animals for shipment was the top priority. That emphasis still exists today.

The project is thankful for all the donated animals by farmers and churches from the area. They also have expanded their committee's activities to include educational and fund-raising events. The project's extended goal is to introduce more people to the needs of Heifer Project International.

The speaker for the evening is Sule Umaru from the country of Cameroon in Africa. He is a member of the Fulani tribe that was living in the area of Lake Nyos when the lake released high levels of carbon dioxide, killing 1,700 people and all livestock in that area on August 21, 1986. Sometime later Sule, being the only English speaking tribal member, was introduced to Heifer Project International. History now speaks on how education and animals were provided to the Fulani tribe.

Please fill in the enclosed reservation form and return by March 20, 1992. The cost for a table of 8 is \$125.00. Mail the reservation and a check payable to Heifer Project International to Mark Nestle-oth. Tickets will be mailed to you and be given to anyone of your choosing.

Thank you for your consideration and support to provide animals to poor farmers of the world so that they can learn to support themselves. We hope to see you at this year's banquet.

For more information, contact Nancy B. Brown, Committee Chairman, Heifer Project International, 453 State Street, Lancaster, Pa. 17603.

HIGH-TENSILE FENCE SUPPLIES

HIGH-TENSILE FENCE WIRE F4099
12 1/2 -gauge High-Tensile Fence Wire Type III (Class A) Galvanized Zinc Coating. Minimum Tensile Strength 17,000 psi; Minimum Breaking Strain: 1500 lbs. Coils: Approximately 4000 feet or 240 rods. **\$62.95** Each

4" TUBE INSULATOR F1718
Required number can be threaded on wires before tying off. Ridges eliminate the insulator from sliding from beneath the staple. High Density Polyethylene. **\$8.95** Per 200

PERMANENT IN-LINE WIRE STRAINER F1703
Maintains correct tension on fence wire. Allows seasonal adjustment. Use in Center of strain or at the end of strain. **\$1.75** Each

NICROPRESS® SLEEVES F4425
Splicing of 12 1/2 -gauge wire can be accomplished with three crimped sleeves, which withstand up to 1800 lbs. tension. Two sleeves required for bringing wire around end post. Also used for attaching In-Line Strainers. 100 per box. **\$16.95** Per 100

WIRELINK® F2081
A fast, simple "no-knot" method of joining wire. Wirelink is treated to prevent corrosion and no attachment tools are required. Withstands up to 1800 lbs. of tension. **\$1.75** Each

TIGHTENING HANDLE F1701
For adjusting permanent in-line strainers. **\$3.95** Each

SPINNING JENNY F1717
Pays out wire with ease. Central spike with large stabilizer plate holds firmly in the ground. **\$45.95** Each

NICROPRESS® TOOL F2154
No crimp sleeves. **\$59.95** Each

4"x6 1/2' TREATED POSTS PW65
\$4.25

5"x8' TREATED POSTS PW8
\$6.75

RUBBER GATE HANDLE
\$1.55

STEEL CASED GATE HANDLE
\$3.10

F2222 SPRING GATE
16'
\$10.95

F2221 SPRING GATE
20'
\$12.95
