160 HP-CLEAN!

SEE BINKLEY & HURST BROS. INC. FOR ALL YOUR DUAL WHEEL NEEDS PLUS A COMPLETE LINE OF HARDWARE

Operating Guidelines

As in all dual wheel applications, Snap-On duals should be maintained at lower air pressure than the original tractor tires.

To remove Snap-On duals, simply position one clamp at top center and remove all other clamps. Then, using the furnished handle for additional leverage, disengage the remaining clamp to loosen the dual.

Ductile iron clamps feature an innovative foot design which eliminates bending and loosening of the components by applying the support load to the rim rather than to the rail.

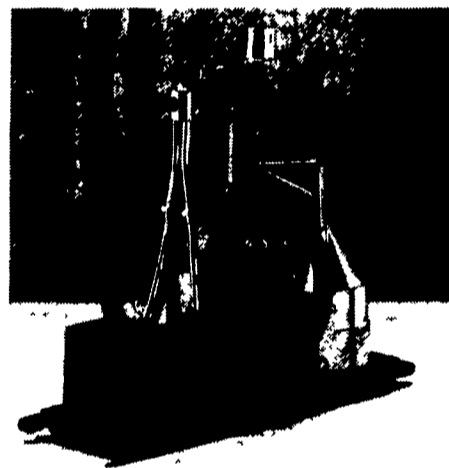

Heat-treated, epoxy-coated steel attaching hooks are corrosion-resistant and virtually indestructible.

Tear drop forged eyelets resist stretching and breaking and feature a rust-inhibiting, electroplated finish.

NEW ARRIVAL! SPECIAL EDITION

International Famous Engine 1/8 Scale

International Harvester first began producing vertical gasoline engines in 1905 which single-handedly brought inexpensive, reliable power to American farms. Gasoline engines were available in 2, 3 and 5 horsepower.
