**NORTHEAST BROILER/FRYER PARTS. FEDERAL-STATE:** Trucklot buying interest centered around tight supplies of whole breasts and wings. Supplies of boneless skinless breasts were adequate

for current needs but the undertone was unsettled. Most trades were reported at 1.85, some product was still available below 1.80, but some sellers asked higher prices for late week production. Line run breasts were in close balance with immediate needs and buyers paid higher prices. All product booked for end of week delivery was at 92 cents or higher. Legs and leg quarters were adequate at current prices. Wings were short of buyer inquiries and buyers paid higher prices.

**Delmarva Broiler-Fryer Market**

Wednesday, April 8, 1992

Movement of ready-to-cook whole birds was light to fair and about normal for mid-week activity. Supplies were fully adequate with lighter weight sizes in close balance at most plants. Less than trucklot asking prices were unchanged at 46 to 58 cents. Slaughter schedules were reduced and of moderate volume as some operations were curtailed. Additional down time was scheduled for later in the week and next week. Live supplies were moderate and weights were generally desirable to heavy. Trade sentiment was about steady. Whole breasts and wings were in a stronger position while boneless skinless breasts were steady at best.
