N.E. Chicken Parts

May 6, 1992
 Trucklot buying interest was irregular and ranged fair to good. Boneless skinless breasts were short of meeting a good demand for immediate needs. Line run breasts were adequate for trade needs at steady prices. Legs were fully adequate to ample for a light buying interest. Leg quarters were becoming more available and buyers became more cautious as first of the month needs slowed. Wings were available and slow to clear with asking prices trending lower.
