 Non-Flammable

IXL

Anti-friction Metal Conditioner

- Reduces friction, heat and wear:
- ★ Gas & Diesel Engines
- ★ Transmissions
- ★ Gear Boxes And More!

Why Use IXL? It Pays!

IXL is carried to friction points in conjunction using a carrier such as oil, grease, hydraulic fluid, freon etc., initial treatment starts by treating the metal parts 3 to 5 microns deep, making the surface denser, harder and smoother; thereby, reducing friction, heat and wear up to 80%. This surface conditioning is extremely durable withstanding engine dry start up and other lube starvation problems. This results in minimum metal wear, giving maximum engine, gear and machine life. This product is bio-gradeable and non-toxic and does not contain moly, teflon or graphite.
