

Best Values in New Equipment

Now The Choice Is More Cut And Dried than Ever.

Case IH now has eight high-performance mower conditioners that give you a choice for every size haying operation.

And each one comes fully equipped with features you'll find nowhere else.

Example: Dual opposed rotation augers on the 12-foot 8360 center pivot model. Augers distribute the crop evenly over the full 110-inch width of the conditioning rolls. And their gentle action keeps nutritious leaves from being rubbed off.

For non-stop cutting performance, the 8340 features conditioning rolls that separate to let

heavy crop slugs pass through, and then automatically return to preset pressure.

And for difficult conditions, you won't find a more effective machine than the 3309 disc mower. Its seven rotating oval discs slice through crops with ease, while its conditioning rolls crush and crimp your crop thoroughly, yet gently.

Your nearby Case IH dealer is the place to see this wide selection of mower conditioners. Check them out to see why the choice is now more cut and dried than ever.
