ATTENTION FARMERS
 Strengthen And Reseal Your Silo With Shotcrete

STRONGER AND WILL OUT LAST PLASTER

IS YOUR SILO READY TO BE FILLED WITH GRASS SILAGE?

PLEASE CHECK YOUR FILL PIPES AND DISTRIBUTORS NOW BEFORE FILLING SEASON

S&S Silo Service prepares the silo surface by using a 3,000 lb. pressure washer, thus making the silo moist, making a much better surface to bond shotcrete. After shotcreting, S&S always takes away any roughness by applying a steel trowel finish. The excellent bonding of shotcrete to the silo will keep out moisture and prevent mold from growing on the side of the silo.

WILL SERVICE 3 TO 4 DAYS OR LESS ON MOST JOBS
