

# One standard of quality #1 in the field

**Disc Mower-Conditioner**

Stop in and see the new Model 412 Discbine® disc mower-conditioner. It gives you a 9'9" cut and has a new economical flail conditioning system that scuffs plant stems for fast drying.

**Rake Tedder**

It's the Model 254 rake tedder from Ford New Holland. It teds hay, rakes a swath into a windrow, rakes two windrows into one, moves crop away from trees and fences. Do it all with the "254."

**Windrow Inverter—Model 166**

The New Holland Model 166 windrow inverter will change the way you make hay—for the better. The Model 166 speeds drying time as it lifts, fluffs and turns windrows without roughing-up the hay. And, keeping more of the protein-rich leaves intact means you get high-quality hay into the bale or silo, fast!

**Roll-Belt™ Round Balers**

The unique New Holland Models 650 and 660 Roll-Belt™ round balers make the best quality bales ever. Tight bales — dense bales. Good-looking, square-shouldered bales that hold up to the weather. The patented Roll-Belt design means fast, sure core formation, even in the toughest crops.

**New Equipment Waiver Of Financing Until  
Aug. 1, 1992. Low Financing APR**
