**IL SERVICE**

**ATTENTION FARMERS**  
 Strengthen And Reseal Your Silo With Shotcrete

**STRONGER AND WILL OUT LAST PLASTER**

**IS YOUR SILO READY TO BE FILLED WITH GRASS SILAGE?**

**PLEASE CHECK YOUR FILL PIPES AND DISTRIBUTORS NOW BEFORE FILLING SEASON**

S&S Silo Service prepares the silo surface by using a 3,000 lb. pressure washer, thus making the silo moist, making a much better surface to bond shotcrete. After shotcreting, S&S always takes away any roughness by applying a steel trowel finish.  
 The excellent bonding of shotcrete to the silo will keep out moisture and prevent mold from growing on the side of the silo.

**WILL SERVICE 3 TO 4 DAYS OR LESS ON MOST JOBS**

**WARNING, ALL SILO OWNERS**

It's important that you know your silo needs maintenance. Your silo will not fall when its empty. Please check your silo for damage or check your insurance policy!

**RESURFACES INTERIORS:**

- Coats the silo's interior
- Protects feed in storage
- Durable, tough, acid-resistant
- Increases useful life
- Economical

**Before** The silo's interior with plaster damaged and stave exposed      **After** The surface is reconditioned, and a new, thick, tough surface will protect stored feed

**REPAIRS HOLES:**

- Repairs even large holes
- Up to twice the strength of the original stave
- Rapid application
- Durable surface

**Before** A hole is worn completely through the silo wall      **After** With the hole repaired by Shotcrete and a new surface applied, the silo is ready for years of use

**EXTENDS USEFUL LIFE:**

- Support for old foundations
- Special repairs can be made... quickly and economically
- Little or no forming needed
- Stronger than the original

**Before** The bottom part of the staves are completely worn away      **After** The Shotcrete System repairs and replaces the missing structure

**Shotcrete is also good for repairing stone walls**

**Please Call Soon For Your Silo Repairs!**
