

Best Values in New Equipment

"Her" Choice

If Holsteins could talk, the conversation around the hay manger would be "Case IH Center Line Balers".

Why? More leaves per bale.

Our low profile pickup allows alfalfa hay to retain more dry leaves. We don't lift the windrow as high, saving leaves at the pickup. We also start to compress the hay before it enters the chamber to lock in leaves throughout the flake... leaves don't settle to the bottom and fall out the back of the baler to the degree of older style square balers.

More leaves means more milk, without increased overhead. Many studies show increased production of \$1,000 per year over a milking herd of 100 with 2% leaf savings!

Case IH Center Line Balers...one of the quickest ways to increase milk production without adding cows. Improve your bottom line with improved leaf savings.
