

CAERNARVON FARMS

ANDREW AND LUCILLE STOLTZFUS

Invite You To The Berks County Holstein Club Picnic
July 23- 7:00 P.M.

Caernarvon Farms

A 1992 Dairy Of Distinction Winner

Located between Morgantown and Welsh Mountain, is the home of over 300 Registered and Grade Holsteins. The June DHI Rolling Herd Average of 20,580 lbs. milk, 661 lbs. protein, and 762 lbs. fat. on over 100 cows speak well for milk production, but Caernarvon is best known world-wide for the elite genetics they produce and market through Embryo Transfer technology.

The Caernarvon Management Team (L to R) consisting of Dean Reitz, Andrew Stoltzfus, and Clair Hoover, review the latest DHI report with Brown's Area Director Gerry Roman (2nd from left). In the background one of several ET Calves sired by Mascot looks on. Andy says that the calf care is Lucille's department. In addition to running the farm Andy is a Director of Atlantic Dairy Coop.

FEATURING TWO TOP COW FAMILIES

Jody Family

Spirit Family

CAERNARVON LEVI JEANETTE - ET

Very Good - 88 Pts. - Ex Mammary
2 yr. 2 Mo. - 365D 28,034 Milk 905 Fat 860 Protein.
Fresh again at 3 yr. 4 mo. this Levi daughter peaked at 114 lbs. at 94 days and is projected to hit 25,000 lbs. milk and 769 lbs. of protein. She is one of several members of the Jody family featured in the upcoming Triple Crown Holstein Sale. Jody has 13 milking daughters/granddaughters in the herd.

CAERNARVON STAR SHANA-ET

Very good 86 point Blackstar Daughter - At 2 yr. 2 mo. Shana is projected to make a 305 day record of 21,705 lbs. of milk, 669 lbs. protein and 805 lbs. fat. Fresh since January she peaked at 90 lbs. and is still milking 86 lbs. milk. Andy feels Brown's 30 Prolac Pellets help his heifers peak higher and persist longer than DHI projections.

Andrew says total Milk Protein production is the product his market seeks. A Brown's customer for over 20 years, he feels products like Brown's 30 Prolac Pellets, Brown's 34 Amino Plus feed, and Brown's Cooked Soybeans allow him to maximize the genetic potential of the top cows in the Caernarvon Herd. He has tried other products but always returns to Brown's Feeds and Feeding Programs.
