**DO A
GOOD
TURN**

Turn in your old sweep arm auger unloader and put ForceFlo™ unloader's dual action to work for you.

The ForceFlo power sweep auger unloader is a powerful way to handle a Harvestore® brand structure full of high moisture grain. Whenever the discharge auger is operated, the sweep auger also automatically goes to work. This forceful sweeping action is continuously undermining and removing grain from the bottom of the structure. Grain has less of a chance to set up and compact.

Turn in your old sweep arm unloader for ForceFlo's improved performance. Special trade-in deals and low interest financing packages are now in effect. Contact your authorized A.O. Smith Harvestore Products, Inc. dealer today for more information.

Now is a good time to trade in your old sweep arm auger unloader and add a new twist to your feeding schedule.
