

One standard of quality #1 in the field

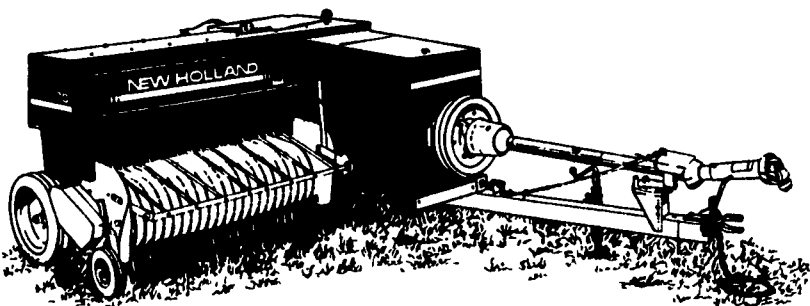

Mower-Conditioner

You'll love the wide-cutting performance of the new Model 415 Discbine® disc mower-conditioner. Seven discs make an 11½-foot cut to cover acres fast. And with the New Holland torsion bar roll pressure system, you'll condition thoroughly without plugging. Stop in soon and let us show you the *big* performance of the new "415".

166 Windrow Inverter

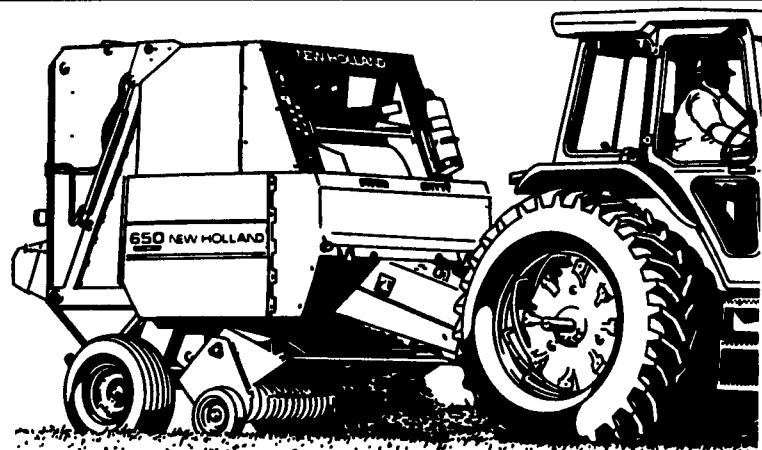

The New Holland Model 166 windrow inverter will change the way you may hay — for the better. The Model 166 speeds drying time as it lifts, fluffs and turns windrows without roughing-up the hay. And, keeping more of the protein-rich leaves intact means you get high-quality hay into the bale or silo, fast!

570 Square Baler

The "570" New Holland square baler from Ford New Holland brings together performance and reliability, along with improved capacity.

- New rotary feeding system
- Faster plunger stroke
- Wider Super-Sweep pickup
- Stronger materials.
- Gear-driven tying mechanisms.

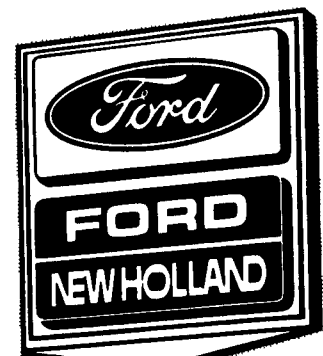

650 Round Baler

The new award-winning design of our wide pickup, available on Model 650 New Holland round baler, lets you handle wider windrows. So you pick up more crop instead of leaving it in the field. And the flared sides mean smoother bale ends for sharper, denser, better-looking bales.
