Chop Your Harvesting Time By Up To 20%

When it comes to harvesting your forage, time is money. And Gehl forage harvesters get the job done faster with these performance features:

- **Exclusive Auto-Max Load-Sensing System** — Increase capacity by up to 20%. Lets you operate at top capacity without the fear of downtime due to overloading.
- **Metal-Stop Metal Detector** - Prevents machine damage and hardware disease.
- **In-Head Hydraulic Knife Sharpener** - Lets you sharpen knives in the field
- **Patented One-Sided Cutterbar Adjustment** - Makes adjusting the cutterbar quick and easy.
- **Three Models To Choose From** - Including the largest capacity pull-type forage harvester on the market.

Common Sense Mower Conditioners

Gehl mower conditioners are "common sense" machines because they're packed with sensible features. Gehl pull-type sicklebar mower conditioners are built to give you fast cutting and conditioning for quick crop dry-down.

- **Full-width intermeshing conditioning rolls** with intermittent ribs deliver thorough, uniform conditioning.
- **Simple sickle drive** with pivot-arm design provides more cutting force.
- **Fewer moving parts** than competitive models for worry-free performance.
- **Three-point flotation support** protects the cutterbar from rocks and uneven terrain.
- **Two models** with 7-foot and 9-foot cutting widths available.
