**BREWEX - For  
Use In Dairy Feeds**

BREWEX is used extensively  
in complete dairy formulations to contribute  
utilizable energy. It is a price/performance value  
when used in dry feeds, liquid feeds and on-farm  
mixes.

**MIX WITH DRY FEEDS:** BREWEX is  
found in commercial pelleted rations for dairy,  
hogs and poultry as an energy source to replace  
corn. BREWEX replaces corn on a pound for  
pound dry basis and provides for improved pel-  
let durability, reduced mineral segregation, dust  
control and improved palatability in dairy  
rations.

**ON-FARM MIXING**

A commercial Jersey dairy farm, having over  
ten years of experience in feeding BREWEX to  
partially replace corn finds that

- BREWEX replaced 5% to 10% corn/day
- BREWEX improves butterfat about 0.1%
- BREWEX mixed with forage reduces mortality due to displaced abomasum
- BREWEX helps cattle to stay on feeds
