VALUE ANALYSIS:

These results from 1991 Penn State Yield Trials indicate that for a 50-acre alfalfa grower there can be as much as \$27,600 difference using a public variety and as much as \$24,800 using a leading competitive variety over the 4 yr. life of that alfalfa stand.

Don't worry about saving a Few Dollars on the Seed only to loose thousands in the Field!

"PICK A PAIR"

Plant one of these	and one of these
CROWN II	TRIDENT II or ROYALTY
CROWN	ENDURE

Specific variety profile data will be published later to show you why these specific pairs are recommended and how to best manage each combination, through the use of harvest schedules, growing degree days or stage of growth.
