- Come on in and we'll show you the model ready to work for you!

Power up with **Ford PowerStar™ tractors**
The new standard in 66 to 106 hp!

New transmission choices, including the 16x16 Pulse Command™

NEW! Exclusive design produces best-ever bales
The unique New Holland Models 650 and 660 Roll-Belt™ round balers make the best quality bales ever. Tight bales — dense bales. Good-looking, square-shouldered bales that hold up to the weather. The patented Roll-Belt™ design means fast, sure core formation, even in the toughest crops. The adjustable hydraulic belt-tensioning system puts maximum bale density control at your fingertips. And, you can choose from three optional automatic tying mechanisms for the smoothest package ever.

Harvest your crop with the best in self-propelled harvesting

If you custom harvest as well as chop your own forage, self-propelled harvester like the Model 1915 can help you harvest more crop at peak quality. The fuel-efficient 270-horsepower diesel engine and the 24-inch, 12-knife cutterhead give you high-capacity day-in and day-out harvesting. And the exclusive automatic knife sharpener and automatic shearbar adjuster, called Accucut™, combine to give you precision-sharpened knives and a reset shearbar, all from the comfort of the cab.

Stop in today, and let us show you the other features of the "1915". Or better yet, let's set up a time to demonstrate this harvester in your own field.

Dependable Discbine® performance Now wider!

You'll love the wide-cutting performance of the new Model 415 Discbine® disc mower-conditioner. Seven discs make an 11¼-foot cut to cover acres fast, and with the New Holland torsion bar roll pressure system, you'll condition thoroughly without plugging. Stop in soon and let us show you the big performance of the new "415."

Now get better bales from a better baler

Solid, stackable bales. And unsurpassed baler capacity. You'll get it all from New Holland square balers. The Models 570 and 575 feature a revolutionary rotary feeder that is tender on alfalfa . . . while handling lots of crop.

The Model 565 features a beefed-up Flow-Action® feeding system for big capacity. For the best combination of capacity, reliability and quality in the industry, visit us today . . . your Ford New Holland dealer.

Seeing is believing

Every minute you can save at the blower means more loads per day and more overall productivity. Let us demonstrate the New Holland Model 40 forage blower and we believe you'll agree you can increase your silage productivity. The Model 40, with 20 percent greater tip speed than previous models, center fills silos over 80 feet high. The Whirl-A-Feed® table spins the crop into the blower housing at high speed, making more efficient use of your tractor's horsepower. See us soon for a demonstration of the Model 40.

Total performance for big crop harvesting

You get total performance when you harvest your crops with a Model 900 forage harvester. Total performance begins at the cutterhead. The 12 knives of the 21-inch cutterhead give you uniformly cut, high-quality forage. Other features on the "900" include:

- Optional Metalert® II electronic metal detector—protects cutterhead and your valuable animals
- Electromagnetic clutches—give instant response in controlling feedroll and attachment drives.
- Easy-adjust shearbar—makes adjustment fast and precise.

Stop in soon and see the Model 900.

First in durability

Surveys show owners rate New Holland grinder-mixers as the most durable. That's because Ford New Holland builds them right and backs them with quality parts and service. The Model 358 has a 125-bushel tank that's specially designed to eliminate bridging. An optional electronic scale assures accurate control of rations. Stop in and see the durable Model 358 grinder-mixer.

Load... unload faster and easier

When you're working the big loads you need the Super Boom advantage — extra reach. With more forward dump reach you can center load your largest spreader from one side so you get an even load. The result: faster loading, fuller loads and easier unloading. With level bucket lift you load more and lift higher... with less spillback. And, with a longer wheelbase there's more stability and safety. So, why get stuck with anything else? Find out just how good a skid-steer loader can be.

We have a spreader for any farm

Ford New Holland offers six quality spreaders to match any farming operation. All New Holland spreaders clean out fast to make quick work of dirty jobs

Model	Capacity (bu.)
125	108
135	138
145	177
155	217
185	287
195	410

- Bonded Protection, the exclusive lifetime guarantee, covers the polyethylene floor and steel sides. Ask us for details
- Corrosion-resistant steels are used throughout for tough, long-lasting construction
- Plus adding optional slurry sides on the Models 145, 155 and 185 increases capacity up to 25% at a fraction of the cost.
