Does Not Effect Oil Filters Contains No PTFE FINALLY! AN OIL ADDITIVE THAT REALLY WORKS! Satisfaction Guaranteed Or Your Money Back IXL Anti-Friction Metal Conditioner Science brings a new dimension to Anti-Friction A metal conditioner product ahead of its time, IXL will give your equipment priceless protection. IXL gives protection far superior to just oil or lubricants. IXL is specifically designed to be used in: (NEW) and (USED) gasoline & diesel engines, compressors, automatic & manual transmissions, hydraulics, gear boxes, bearings of all types, turbos, pumps, and much more. IXL is a metal conditioner which treats all ferrous metals 3 to 5 microns deep, thereby making the metal surfaces harder, denser and smoother. These results are minimum metal wear, giving maximum engine and machine life. IXL reduces heat, friction, and wear, up to 75% without changing tolerances, reducing friction will release energy previously expended to overcome ordinary mechanical resistance. This energy is now available as a positive force, working to increase power, performance and fuel savings. IXL, also helps maintain and recondition seals and gaskets, by keeping these items pliable, firm, and flexible. It will help prevent leaks, IXL is not a lubricant fortifier, such as PTFE, Moly, or graphite. IXL is biodegradable, NON-TOXIC and environmentally safe. IXL is one of the highest quality products on the market today. Call For More Information or A Free Demonstration ★ Dealer Inquiries Invited ★
