High Performance In An Economy Car

If you operate a stanchion or tie-stall barn, the **De Laval Feed Car** is the most cost-effective way to improve your herd's efficiency and your farm's performance.

The Feed Car helps you feed cows "less and often." With this method, each cow eats less, yet converts more of what she does eat into milk and butterfat. And because it's a healthier way to feed, you'll see fewer rumen upsets and foot problems.

Best of all, the **Feed Car** reduces your labor. It works automatically to improve your profitability. And it's so efficient, the system typically pays for itself in 18 months or less!

SEE US AT THE SOLANCO FAIR SEPT. 16, 17, 18
