

One standard of quality #1 in the field

**Total performance
for big crop
harvesting**

You get total performance when you harvest your crops with a Model 900 forage harvester. Total performance begins at the cutterhead. The 12 knives of the 21-inch cutterhead give you uniformly cut, high-quality forage. Other features on the "900" include:

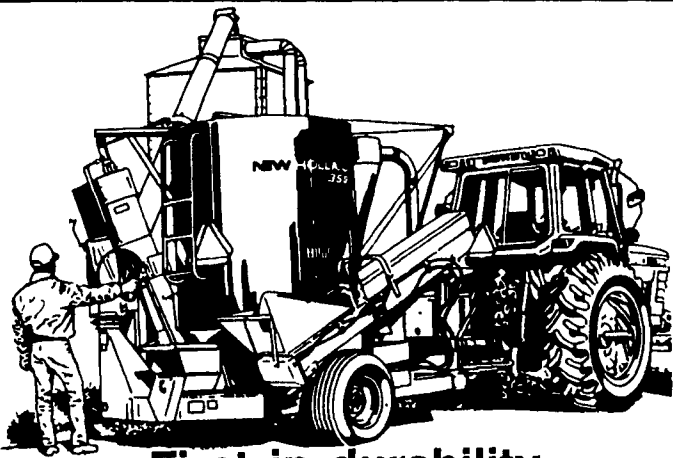

- Metalert II® electronic metal detector (optional)-protects cutterhead and your valuable animals.
- Electromagnetic clutches—give instant response in controlling feedroll and attachment drives.
- Easy-adjust shearbar—makes adjustment fast and precise

**Load...
unload
faster
and
easier**

When you're working the big loads you need the Super Boom advantage — extra reach.

With more forward dump reach you can center load your largest spreader from one side so you get an even load. The result: faster loading, fuller loads and easier unloading. With level bucket lift you load more and lift higher... with less spillback. And, with a longer wheelbase there's more stability and safety. So, why get stuck with anything else? Find out just how good a skid-steer loader can be.

First in durability

Surveys show owners rate New Holland grinder-mixers as the most durable. That's because Ford New Holland builds them right and backs them with quality parts and service. The Model 358 has a 125-bushel tank that's specially designed to eliminate bridging. An optional electronic scale assures accurate control of rations. Stop in and see the durable Model 358 grinder-mixer.

**Forage
Blower**

Every minute you can save at the blower means more loads per day and more overall productivity. Let us demonstrate the New Holland Model 40 forage blower and we believe you'll agree you can increase your silage productivity.

The Model 40, with 20 percent greater tip speed than previous models, center fills silos over 80 feet high.
